Depot Management Software (Sales / Subscription)

Kerry-ITS has the assets, people and IT infrastructure to support your tank requirements. With our integrated tank solutions, we are committed to comply with your schedule.

In this century, keeping and maintaining records are no longer an issue. Kerry-ITS is using the latest in-house technology creation to expedite processes for all departments, including **Operations, Sales & Marketing, Finance & Accounting,** and even **Senior Management.**

With this customized software “**Integrated Depot Management Software (IDMS)**” created since 2008 and currently upgrade to Version 2.0, all clients’ profiles can be recorded and updated into the system for reference. All truck drivers can now register for their collection or delivery order at our Ingate or Outgate Self-Registration Counter by themselves using touch-screen monitor, and they will be issued with a registration confirmation and labels. Tank status will be updated by individual stations, including cleaning, inspection, repair and QC. Tank Activity Report can be generated into PDF format to send to individual client, to keep them updated on their tank movement and status. Tank data will be captured into the system after Equipment Interchange Receipt (EIR) is being generated by the surveyor using Handheld Mobile Computer (PDA). Repair Estimate can be generated through the IDMS system with all items and pricing updated on regular basis.

Major Modules Available

- Parameter (Manufacturer / Survey Type)
- Configuration (Currency Type)
- Tariffs (Cost of Labor / Cleaning / Repair)
- Master (Customer Profiles)
- Inventory (Order / Tank Movement)
- Cleaning (SDS / Approval / Completion)
- Repair (Overwrite / QC)
- Report (Tank Activity / Daily Inventory / Yard Status / Monthly Sales / Yearly Sales)

Users' Testimonials

“The IDMS is a Great software especially for ISO tank business management.”

~ General Manager of a Tank Depot in Thailand

“Having had the hands-on experience working on IDMS and feedbacks from ISO Tank operators, IDMS is one of the best available software with unparalleled features and unmatched excellence for management of ISO tank service depots.”

~ Head of Finance & Accounts of a Tank Depot in India
